DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-7 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Spencer et al. (US 5,633,419) for the reasons set forth in item 3 of the Office action mailed 3/22/2004 and remarks in the Office action mailed 10/28/2004 and remarks in the Office action mailed 6/6/2005.
2. Claims 1-3, 5-7 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Marchand et al. (US 4,910,272) for the reasons set forth in item 4 of the Office action mailed 3/22/2004 and remarks in the Office action mailed 10/28/2004 and remarks in the Office action mailed 6/6/2005.
3. Applicant's arguments filed 12/28/2005 have been fully considered but they are not persuasive.

The declaration of Tim Dickner has been considered, but the showing is not sufficient to remove the rejections. The data presented compares polymers made using either a supported catalyst or an unsupported catalyst. However, as previously stated in item 5 of the Office action mailed 6/6/2005, the claims do not exclude the use of supported catalysts, and therefore the comparison shown in the declaration provides no basis to distinguish over the reference. Furthermore, applicants have not made comparison with the processes cited in the reference, but rather have made up arbitrary

Art Unit: 1713

examples with which to compare their preferred process; as such, the declaration examples using supported catalysts are essentially irrelevant to the rejections of record because they do not correspond to the processes shown in the references.

4. Claim 16 is allowed over the prior art currently of record. The use of the phrase "consists of" in line 4 is understood to exclude from the process all catalyst components other than those which result from "reacting a Ti(IV) compound with an organic aluminum compound at from -20°C to 50°C in a suspension medium for from 0.5 minute to 60 minutes".

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
